

GROCERY BAG

GROCERY BAG

GROCERY BAG is a way to store grocery items for marketing. It will contain a homepage that will be showing all the list of items to buy and bought.

Users will be able to add items and update items, and can even delete it.

REQUIREMENTS

- Users can register themselves and will have a login/logout system.
- Users can **create** a **list of grocery** items to buy.
- Create a flag like - **bought**, **left** and **not-available**
- Create a bar to show **saved lists**, and on the **home-page**, it will show all the lists according to date.
